

Why Hypnosis?

Typically, people have tried hard making changes like quitting smoking, overcoming a fear or losing weight - and failed. It's frustrating and deeply disappointing to you and you feel stuck, like nothing will work. It seems like an insurmountable problem and feels like a mountain to climb.

Here's what you need to know: You do have a choice: Do you want to continue struggling the same way using willpower or do you want to try something that everyone else has (like weight watchers type groups). Doing the same thing or trying joining a self-help group / paying for gym membership MIGHT help, but your experience says they won't.

But what if you were to try something that is scientifically proven to work for a large number of people? Hypnosis works and if you're *motivated* to find out about it, I will make time to have a frank and informal private chat with you to let you know exactly what it is, what's required of you and how this is totally different and will help you get totally different results to anything you've tried before.

After all, when you think about what you've already tried, and you think about what you could try and then compare that to hypnotherapy (turbo charged by NLP), your results can skyrocket. Don't miss out. Call now on 07771 554782.

When you attend your advanced hypnotherapy sessions, you will discover why so many people get excited and *tell their friends and family* about them.

CLIENT TESTIMONIALS

"In the past two months, I am like a different person. I have become more confident in myself, more relaxed and can cope with stress much more easily. I can't believe how relaxing your sessions are and how far I've come." - Louise Fricker-Billing

"Hi Richard, I just wanted to let you know that two weeks on the non-smoking is going great guns. All my cravings are gone, I feel so much healthier and I never want to pick up another packet of cigs! Thanks for your help." - Mark Templeton

"I certainly didn't expect to be as convinced by his methods as I was. I did feel better about myself." - Laura Wright, South Wales Echo, June 2007

"Since I first started coming to see you I have now lost a stone in weight but more importantly for me I managed to get through an incredibly stressful time over the last few months without binging." - Lisa Brown

"The fear [of flying] has completely gone and I feel so much more optimistic. I can't believe how this has knocked on so positively into other areas of my life." - Rhian Edwards

HOW CAN HYPNOSIS HELP YOU?

Hypnotherapy is a powerful, proven way of helping a wide range of problems. It could assist you in gaining relief from fears and phobias, as well as control weight.

You don't realise it yet, but booking hypnotherapy may be the best thing you have ever *felt motivated* to do. As you look back with increased confidence and a sense of wellbeing, imagine how incredibly valuable your hypnotherapy sessions have been.

As well as helping you gain relief from panic, fears, or anxiety about giving a speech, hypnosis can also help you lose weight, quickly and easily. Picture yourself fitting comfortably into a new outfit or smart suit, and *feeling confident* in front of friends and colleagues.

You're probably wondering whether you can go into a trance. Fact: you already can! Just remember a time when you have started to daydream, or lost yourself in an exciting film. And it'll become clear how many times you naturally *enjoy going into trance* each day.

You have nothing to fear from hypnosis and everything to gain. You are always in control. I create a calm and comfortable setting where you are *naturally motivated* to make the changes you want.

Now, I can almost hear your mind saying, "I am interested in finding out more. What should I do now?" Call now on 07771 554782 in confidence for a free informal chat and to ask any questions you have. I would like to hear from you.
